cohda-63.txt - P3 2026-01-19 Jenkins-vc02 disconnected from ESX hosts (ID:63)

19/01/26

=====

08:47 Email from Matthew Banks.

10:10 Investigated and applied fix as per CohdaIT.chm -> Jenkins-vc02 disconnected from ESX hosts. Advised Matthew.

10:20 Matthew confirmed its working.

10:33 This keeps reoccurring - Ticket created. Status set to "TESTING". Refer cohdaIT.chm

13:17 Suant advised we had lost power Friday evening.

27/1/26

=====

09:17 Email from Matthew advising Jenkins vSphere was broken again. Investigated and applied fix as per CohdaIT.chm (Refer above)

11:15 Emailed MB asking him to try again. He confirmed it was up again. Set ticket to "WAITING" - It will happen again. Need to investigate how/why the resolve.conf gets changed to point to old DNS at boot.
